

SENTINEL AI

Laporan Audit Keamanan Website
Tanggal: 24 June 2026, 16:20 WIB

Security Score	60.5	Grade: D	Risk: HIGH
----------------	------	----------	------------

Ringkasan Eksekutif

Audit keamanan untuk <http://localhost/dvwa/> telah selesai dilakukan oleh Sentinel AI. Website mendapatkan Security Score 60.5/100 dengan Grade D. Ditemukan 0 temuan Critical, 15 High, 16 Medium, dan 15 Low. Total 4 rekomendasi perbaikan telah disiapkan.

Metrik	Nilai
Website	http://localhost/dvwa/
Total Halaman	1
Total Endpoint	24
Durasi Scan	0 detik
Mode Scan	FULL
Critical	0
High	15
Medium	16
Low	15

Teknologi Terdeteksi

Teknologi	Kategori	Confidence
PHP	language	90%
Apache	server	95%

Ringkasan Discovery & Endpoint

Metric	Nilai
Halaman Ditemukan	1
Form Ditemukan	1
Endpoint Ditemukan	23
Aset Ditemukan	2
Endpoint API	0

Temuan Keamanan

No	Temuan	Severity	Confidence	OWASP
1	Missing Security Headers	MEDIUM	99%	A05:2021

2	Critical Security Headers Missing	HIGH	99%	A05:2021
3	Server Version Disclosure	LOW	98%	A05:2021
4	Insecure Cookie Configuration	MEDIUM	95%	A07:2021
5	Missing Security Headers	MEDIUM	99%	A05:2021
6	Critical Security Headers Missing	HIGH	99%	A05:2021
7	Server Version Disclosure	LOW	98%	A05:2021
8	Missing Security Headers	MEDIUM	99%	A05:2021
9	Critical Security Headers Missing	HIGH	99%	A05:2021
10	Server Version Disclosure	LOW	98%	A05:2021
11	Missing Security Headers	MEDIUM	99%	A05:2021
12	Critical Security Headers Missing	HIGH	99%	A05:2021
13	Server Version Disclosure	LOW	98%	A05:2021
14	Missing Security Headers	MEDIUM	99%	A05:2021
15	Critical Security Headers Missing	HIGH	99%	A05:2021
16	Server Version Disclosure	LOW	98%	A05:2021
17	Missing Security Headers	MEDIUM	99%	A05:2021
18	Critical Security Headers Missing	HIGH	99%	A05:2021
19	Server Version Disclosure	LOW	98%	A05:2021
20	Missing Security Headers	MEDIUM	99%	A05:2021
21	Critical Security Headers Missing	HIGH	99%	A05:2021
22	Missing Security Headers	MEDIUM	99%	A05:2021
23	Critical Security Headers Missing	HIGH	99%	A05:2021
24	Server Version Disclosure	LOW	98%	A05:2021
25	Missing Security Headers	MEDIUM	99%	A05:2021
26	Critical Security Headers Missing	HIGH	99%	A05:2021
27	Server Version Disclosure	LOW	98%	A05:2021
28	Missing Security Headers	MEDIUM	99%	A05:2021
29	Critical Security Headers Missing	HIGH	99%	A05:2021
30	Server Version Disclosure	LOW	98%	A05:2021
31	Missing Security Headers	MEDIUM	99%	A05:2021
32	Critical Security Headers Missing	HIGH	99%	A05:2021
33	Server Version Disclosure	LOW	98%	A05:2021
34	Server Version Disclosure	LOW	98%	A05:2021
35	Missing Security Headers	MEDIUM	99%	A05:2021
36	Critical Security Headers Missing	HIGH	99%	A05:2021
37	Server Version Disclosure	LOW	98%	A05:2021
38	Missing Security Headers	MEDIUM	99%	A05:2021
39	Critical Security Headers Missing	HIGH	99%	A05:2021
40	Server Version Disclosure	LOW	98%	A05:2021

41	Missing Security Headers	MEDIUM	99%	A05:2021
42	Critical Security Headers Missing	HIGH	99%	A05:2021
43	Server Version Disclosure	LOW	98%	A05:2021
44	Missing Security Headers	MEDIUM	99%	A05:2021
45	Critical Security Headers Missing	HIGH	99%	A05:2021
46	Server Version Disclosure	LOW	98%	A05:2021

Rekomendasi Perbaikan

1. Tambahkan Security Headers yang Wajib

Prioritas: MEDIUM | **OWASP:** A05:2021 - Security Misconfiguration | **CWE:** CWE-693

Penyebab: Web server tidak mengkonfigurasi HTTP security headers yang direkomendasikan.

Solusi: Tambahkan security headers: X-Frame-Options, X-Content-Type-Options, X-XSS-Protection, Content-Security-Policy, Strict-Transport-Security, dan Referrer-Policy.

2. Headers Keamanan Kritis Tidak Ditemukan

Prioritas: HIGH | **OWASP:** A05:2021 - Security Misconfiguration | **CWE:** CWE-693

Penyebab: Hampir semua HTTP security headers standar tidak dikonfigurasi pada server.

Solusi: Segera konfigurasi semua security headers yang direkomendasikan OWASP. Gunakan tools seperti securityheaders.com untuk verifikasi.

3. Sembunyikan Versi Server

Prioritas: LOW | **OWASP:** A05:2021 - Security Misconfiguration | **CWE:** CWE-200

Penyebab: Header Server mengungkapkan versi web server yang digunakan.

Solusi: Konfigurasi web server untuk menyembunyikan atau mengubah header Server. Di Nginx: server_tokens off; Di Apache: ServerTokens Prod.

4. Amankan Konfigurasi Cookie Sesi

Prioritas: MEDIUM | **OWASP:** A07:2021 - Identification and Authentication Failures | **CWE:** CWE-1004

Penyebab: Cookie sesi tidak memiliki flag keamanan yang diperlukan (HttpOnly, Secure, SameSite).

Solusi: Set atribut HttpOnly, Secure, dan SameSite=Strict pada semua session cookie.

Top Endpoint Prioritas

URL	Method	Priority
/admin	GET	99
/dashboard	GET	99
http://localhost/dvwa/login.php	POST	99
/signin	GET	97
/login	GET	97
/upload	GET	95
/api/	GET	93
/api/v1/	GET	93
/signup	GET	88
/register	GET	88

/account	GET	85
/users/	GET	85
/profile	GET	85
/user/	GET	85
/search	GET	80
/comment	GET	75
/post	GET	75
/checkout	GET	70
/reset-password	GET	65
/forgot-password	GET	65
